

Current report no. 13/2022

Date of preparation: 14.10.2022 r.

Subject: Conclusion of a significant agreement

Legal basis: Article 17(1) of the MAR Regulation

**Content of the report:**

The Management Board of Mangata Holding S.A. ("Issuer") announces that the Issuer's subsidiary Kuźnia Polska S.A., based in Skoczów, concluded on 12 October 2022 a significant 4-year agreement Component Supply Agreement - with AGCO POWER, based in Finland, which is part of the NYSE-listed AGCO Corporation.

AGCO POWER is the world's third largest manufacturer of agricultural equipment such as tractors combines and other agricultural machinery (brands: Fendt, Valtra, Massey Ferguson). Kuźnia Polska S.A. is a supplier to several AGCO POWER locations, e.g. factory in Finland and factories in Brazil and China.

Kuźnia Polska provides die forgings, which are machined, used in engines, gearboxes and suspension components for equipment manufactured by AGCO POWER.

Kuźnia Polska S.A. has also been nominated as a supplier of forged components for the new design of engines meeting the most demanding emission standards, which will be used in the latest platform of machines produced by the AGCO POWER concern. Series production will begin in 2023.

Estimated turnover over the next four years will be around 50-60 Mio. EUR.
